<p>Only 4 Girls: Girls in this age group are developing their interests and their priority is no longer just pure play. They create options to withdraw with, so they can build a sheltered place for themselves. This place can be provided by "Only4Girls". In this club girls have the possibility to be just girls, with all the topics they bring along. For example: friendship, feelings, boundaries, cosmetics, trends, etc.</p>	
<p>Learning to Learn - Study skills: The Project “Learning to Learn” is an opportunity for students of every class to learn individual work- and learning techniques. They will be empowered to use them appropriately in different situations, so they can achieve their self-imposed learning targets; therefore they will consider their learning behavior and analyse their strengths. The courses will take place in relevant age groups with 5 to 10 students and will start as soon as possible and throughout the whole school year when the demand for a new group is high enough. <i>(Y5 on)</i></p>
